3BREATH SOLUTION 3IN1 RESPIRATORY

Rossmax 3BREATH is a unique 3in1 compressor nebulizer that integrates with a nasal washer and a nasal aspirator. The nebulizer enables efficient medication delivered to the upper airways and lung periphery. It provides comprehensive, effective and convenient care for common respiratory conditions.

1 Piston Nebulizer

The Valve Adjustable Technology (VAT) bottle allows users to adjust different levels of Nebulization rate 0.1 (closed) / 0.3 (fully open) ml/min at consistent particle size.

- MMAD $\leq 2.5 \mu\text{m}$
Fine Particle Dose (FPD): 80-85%
- Patented Valve Adjustable nebulizer bottle (VAT)
- Very low noise with silencer and vibration absorber design

Storage and Transportation Condition:
-20°C~60°C(14°F~140°F), 10%~90% RH, 700~1060 hPa

Patent Nos:
CN: ZL 2012 2 0443597.3, ZL 2014 3 0313271.3,
ZL 201730601230.8, ZL 201730601572.X
Other patents pending

2 Nasal Washer

- Flushes nasal cavities and rhinopharynx to clear secretions, mucus and harmful substances and alleviates allergic symptoms.
- Nasal washer nebulizes 10ml of solution in about 2 minutes.
- Silicone nasal adaptors provide comfortable and soft touch and reliable seal.
- Made of biocompatible and non-allergenic materials.
- Comes with 3 sizes of nasal adaptors and suits all ages.
- Fluid chamber capacity: Max 20ml

3 Nasal Aspirator

- Removes mucus to alleviate nasal congestion by clearing a blocked nose. It is safe and gentle solution to a blocked nose in babies. Thanks to the Dual pump design, nebulization and suction pump, provides the maximum hygiene to avoid cross infection.
- Adjustable vacuum level.
- Ergonomic design to ensure a smooth operation.
- Max vacuum @ pump inlet: ≤ -450 mmHg
- Max air flow @ pump inlet: ≥ 5.0 lpm
